

FINDING FAITH: Small Group Bible Study inspired by the movie "A Matter of Faith"

## INTRODUCTION

A Matter of Faith is a Christian drama centered on the clash between biblical creationism and the theory of evolution. The plot follows Rachel Whitaker, a devout Christian student whose faith is shaken by her charismatic biology professor, Dr. Marcus Kaman. Concerned by his daughter's growing doubts, Rachel's father, Stephen, challenges Dr. Kaman to a public debate. The film explores the idea that both evolution and creation require faith, and it ultimately defends the biblical account of creation as the true foundation for a Christian worldview.
